Guest Talk for JOUR4046

By Wang Feng
Editor in Chief
FTChinese.com

Mr. Wang will examine the risks and challenges AI-generated content poses to media and content industries, as well as regulations and potential solutions. Topics include the swift proliferation of machine-generated content across digital platforms, legislative status and regulatory efforts in China and the West, the risks of AI content "contaminating" AI training material, and the development of AI-detection tools. He is eager to engage in detailed discussions with the students on these topics.

ALL ARE WELCOME!

Venue: CVA 109
Date: Oct 10
Time: 6:40-8:00 pm
