

# What is the Future of Journalism in the Age of AI?

**Prof. Raymond R. Wong**  
Convener of the symposium

A new era of media has come. The rise of generative AI presents a transformative opportunity for the journalism industry. One of the most notable developments is the emergence of ChatGPT. This innovative tool has the potential to revolutionize the way we access, understand, and engage with news, and its impact on the future of journalism is profound.

*What and how AI is shaping the future of journalism?  
Experts will share their insights in the symposium.*
